COVID-19 Aviation Safety Risk Management for CAAs (ASRM EN) Virtual Classroom

Apply safety management principles to improve decision making to address COVID-19 challenges and support safe aircraft operations.

▶ LEARNING OBJECTIVES

After having successfully completed this course, participants will be able to:

- Identify challenges for States throughout the COVID-19 pandemic
- Apply a risk-based approach to support decision making to address the challenges faced by the COVID-19 pandemic
- Apply safety management principles to maintain aviation safety during the pandemic and during the restart of aviation activities.

▶ TARGET POPULATION

Aviation safety professionals involved in the management of aviation safety risks at the State level during the COVID-19 pandemic working at:

- Civil Aviation Authorities;
- Regional Safety Oversight Organizations (RSOOs), including Cooperative Development of Operational Safety and Continuing Airworthiness Programmes (COSCAPs); and
- ICAO technical staff supporting State safety programme (SSP) implementation.

▶ STRUCTURE OF THE COURSE

Duration: 1 day (6 hrs)

Delivery Mode: Virtual Classroom

Language of instruction: English

▶ PRE-REQUISITES

Review ICAO Webinar, Management of aviation safety risks related to COVID-19 for CAAs
