Administration

ICAO Government Safety Inspector Operations – Air Cargo Certification (GSI AC EN)

Virtual Classroom

The overall goal of this course is to provide CAA inspectors with an introductory foundation of knowledge necessary to perform the certification activities associated with ensuring the safe transport of cargo by air.

▶ LEARNING OBJECTIVES

After having successfully completed this course, participants will:

- Identify the standards and regulations required for certification and continued safety oversight of air cargo operations, and the State's responsibilities for continuing safety oversight of certificated air cargo operators.
- Specify the requirements of an air cargo operator's manual system and applicable documentation.
- Describe the CAA inspector's role in conducting demonstrations and inspections to ensure air cargo operations comply with applicable CAA regulations, guidance and safe operating practices.
- Specify the requirements for approving a training programme for an operator adding air cargo transport to its operations.
- Describe the CAA inspector's responsibilities as they apply to evaluating air cargo operations during transport of special cargo and dangerous goods.
- Identify the major aspects of the Certification Phase for air cargo operations.
- Describe how to prepare and issue the amended OpSpecs.
- Identify CAA responsibilities for continuing safety oversight of air cargo operations.

▶ TARGET POPULATION

Government Safety Inspectors (GSI)
Civil Aviation Authority (CAA) Inspectors

▶ PREREQUISITE

Successful completion of either one of the following two courses is required to attend this course:

1. ICAO Government Safety Inspector Airworthiness – Air Operator and Approved Maintenance Organization Certification (GSI-AIR-18701); or
2. ICAO Government Safety Inspector Operations – Air Operator Certification (GSI-OPS-18700).

▶ STRUCTURE OF THE COURSE

Duration: 5 days

Delivery Mode: Virtual Classroom

Language of instruction: English
